

Veria Control B45

Technical specifications:

● Dimension:	85mm x 85mm
● 2-pole breaker:	Yes
● Veria Logic System (Sensor check):	Yes
● Density:	IP 31
● Accuracy:	$\pm 0,5^{\circ}\text{C}$
● Hysteresis:	$\pm 0,2^{\circ}\text{C} = 0,4^{\circ}\text{C}$
● Stand by consumption:	$< 0,25\text{W}$
● Operating voltage:	180-250 V, 50Hz
● Max. load:	15A - 3450W at 230V
● Sensor type:	NTC 15 kOhm at 25°C
● Working temperature:	$5-45^{\circ}\text{C}$
● Warranty:	2 years

Veria Control B45 is an extremely accurate thermostat which allows you to control your floor heating system by the floor temperature.

Due to the density class of IP 31 the Veria Control B45 is very well suited for installation in wet rooms. Veria Control B45 is supplied completely with both floor sensor and ELKO frame.
